European Aviation Safety Agency

Terms of Approval

**Design Organisation Approval Certificate
EASA.21J.399**

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing piston engines and changes and repairs thereto in accordance with the applicable type certification basis and environmental protection requirements
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Piston engines

3. List of products

Types for which Austro Engine GmbH is type-certificate holder:

AE50R Series
E4 Series

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), the Agency shall accept without further verification compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining:

1. a type certificate or approval of a major change to a type design; or
2. a supplemental type-certificate; or
3. a major repair design approval.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA nr. EASA.21J.399".
4. to approve the design of major repairs to products for which it holds the type-certificate or the supplemental type-certificate.

5. Limitations

[See in 1, above]
