# SERVICE INFORMATION

## No. SI-E4-006

### 1. BASIC INFORMATION

#### 1.1. SUBJECT

New revision index for part numbers

#### 1.2. ENGINES AFFECTED

Type: E4  
Model(s): E4, E4P  
Serial number(s): All

#### 1.3. REASON

With the introduction of an improved internal process for part traceability, Austro Engine GmbH changes the revision index system for part numbers.

#### 1.4. INFORMATION

The currently used revision index for parts and appliances is as follows:

Expiring revision index:

Example: E4A-70-000-000-**115**

This revision index is superseded by the following system:

Issue Date			Rev. No.	Revision Date				Page
27	Mar	2017	---	---	---	---	1-2	

New revision index:

Example: E4A-90-000-000-**CK7**

**NOTE:** Austro Engine GmbH does not convert the existing revision index into the new revision index system. Therefore each part is given revision index "AA1" initially and modifications thereafter are following the new revision index system.

All relevant technical information, which content is referencing to revision indices, is updated accordingly. In case of doubt or questions, the after sales department of Austro Engine GmbH has to be contacted.

## 2. REMARKS

**NOTE:** SI are used only:

- To distribute information from Austro Engine GmbH to our customers.
- To distribute applicable information/documents from our suppliers to our customers with additional information.

Issue Date			Rev. No.	Revision Date				Page
27	Mar	2017	---	---	---	---	2-2
